

INDUSTRIAL COOLER

Applications

Shopping mall / Cinema theater /Function area /Hotels /Warehouses /Paper industries /Food industries /Poultry Farm /Plant area /Textile industries /Plastic industries /Steel industries cooling

Features

- Best copper winded motor with waterproof, high heat tolerance ,dust moisture free
- Input voltage 230v/415V
- Frequency vary +/- 5%
- Consume very low power
- High quality Imported cellulose pad gives best cooling
- Less noise with powerful airflow
- Rugged body suitable for commercial and industrial uses
- Easy to operate and maintain

Technical Specifications

Top Down Cooler		Side Cooler	
Discharge	Top/Down/Side	Discharge	Side
Power (watt)	1100	Power (watt)	550
Airflow	18,000 CMH/10.500 CFM	Airflow	18,000 CMH/10.500 CFM
V/PH/Hz	415/3/50	V/PH/Hz	230/single/50
Rated current	4.5	Rated current	3.3
Fan type	Axial	Fan type	Axial
Fan diameter (in)	24	Fan diameter (in)	30
Fan Speed	Single/1440 RPM	Fan Speed	Three/1440 RPM
Nose db	<73	Nose db	<68
Vent size (LxW)	670x670	Vent size (LxW)	770x770
Dimension (LxWxH)	950x1080x1080	Dimension (LxWxH)	1120x720x1500
Pad thickness	100	Pad thickness	100
Nos. of pad	4	Water tank	100ltr
Controller	External basis Switch	Controller	External basis knob /Lcd
